Codebook for the CAMA dataset: Mispronounciation Sensitivity

Name	Label	Value labels	Scale
report_ID	uniquely identifies a report		numeric
r_author	Name of first author		string
r_year	publication year		numeric
r_apas	short citation		string
r_peer	indicates whether study is from a peer-reviewed publication	no, yes	factor
sample_ID	uniquely identifies a sample		numeric
s_meanage	mean age of sample in days		numeric
s_female	Share of females		numeric
s_natlang	Native language	American English, British English, Catalan, Catalan-Spanish, Danish, Dutch, German, Mandarin, Parisian French, Peninsular Spanish, Spanish-Catalan, Swiss French	factor
s_infant_type	development characteristic of experiment participants	typical, atypical	factor
s_excluded	Number of participants excluded		numeric
t_response	way of measuring response in the experiment	behavior, eye-tracking, looking, physiology, other	factor
t_exposure	type of pre-test exposure phase	familiarization, test_only	factor
t_num_trials	Number of trials		numeric
t_mispron	Were words mispronounced	Correct Pronounciation, Mispronounciation	factor
t_n_mispron	Size of mispronounciations (features changed)		numeric
t_method	method used, names as commonly used in the literature	see separate tab	factor
t_dep_measure	type of dependent measure used in experiment	see separate tab	factor
outcome_ID	uniquely identifies the outcome of a treatment		numeric
o_ni	Sample / group size		numeric
o_m1i	mean (first group or time point)		numeric
o_m2i	mean (second group or time point)		numeric

o_sd1i	standard deviation (first group or time point)		numeric
o_sd2i	standard deviation (second group or time point)		numeric
o_ri	Raw correlation coefficient		numeric
o_ri_var			numeric
o_measure	Outcome measure	see separate tab	factor
o_part_design	indicates the groups that are the comparison of interest for effect size	between two groups of participants, within_two (one group, two measurement points), within_one (one group, one measurement point)	factor
o_d_calc	Cohen's d		numeric
o_d_var_calc			numeric
o_g_calc	Hedges's g		numeric
o_g_var_calc			numeric
o_logo	Log Odds		numeric
o_logo_var			numeric
o_t	t value		numeric
o_z_calc	z statistic		numeric
o_z_var_calc			numeric
