

Codebook for the CAMA dataset: Correlation of Narcissism and Machiavellianism

| Name | Label | Value labels | Scale |
|--------------------|--|---|---------|
| <i>report_ID</i> | uniquely identifies a report | short citation | string |
| <i>r_author</i> | Name of first author | | string |
| <i>r_year</i> | publication year | | numeric |
| <i>r_cites</i> | Total number of citations (Google scholar) until the date of coding | | numeric |
| <i>r_past</i> | Years past since publication | | numeric |
| <i>r_citesav</i> | Number of citations per year on average | | numeric |
| <i>r_language</i> | Language of the report | english, other | factor |
| <i>r_lab</i> | Study authored / co-authored by Peter K. Jonason | no, yes | factor |
| <i>r_peer</i> | indicates whether study is from a peer-reviewed publication | no, yes | factor |
| <i>s_targetpop</i> | Sample population | Adolescent, student, adult, mixed | factor |
| <i>s_n</i> | Total sample size | | numeric |
| <i>s_nmale</i> | Sample size of men | | numeric |
| <i>s_nfemale</i> | Sample size of women | | numeric |
| <i>s_meanage</i> | Mean age of the sample | | numeric |
| <i>s_sdage</i> | Standard deviation of the age of the sample | | numeric |
| <i>s_country</i> | Country in which the sample of the study has been drawn | Verbal coding of each country | string |
| <i>s_continent</i> | Continent in which the sample of the study has been drawn | Europe, Asia, NorthAm, SouthAm, Oceania, Africa | factor |
| <i>s_oecd</i> | OECD status of the country in which the sample has been drawn | OECD country, other/no | factor |
| <i>m_type</i> | Assessment of traits with composite (subscales) or individual measurement (scales) | composite, individual | factor |
| <i>m_language</i> | Language of the measurements | english, other | factor |
| <i>m_scale1</i> | Measurement used to assess Narcissism | ODTM, SD3_27/28, DTDD, other | factor |
| <i>m_scale2</i> | Measurement used to assess Machiavallianism | ODTM, SD3_27/28, DTDD, other | factor |
| <i>m_items1</i> | Number of items to assess Narcissism | | numeric |
| <i>m_items2</i> | Number of items to assess Machiavellianism | | numeric |
| <i>m_alpha1</i> | Cronbach's alpha value for Narcissism | | numeric |
| <i>m_alpha2</i> | Cronbach's alpha value for Machiavellianism | | numeric |
| <i>m_itemstot</i> | Total number of items to assess the Dark Triad - all subscales combined | | numeric |

| | | | |
|---------------|---|--|---------|
| o_ri | Reported correlation between N and P | Pearson's r | numeric |
| o_ri_corr | Correction for Pearson's r | Formula of Wierik and Dahlke (2020), R Package "psychmeta" | numeric |
| o_ri_var_corr | | | numeric |
| o_mean_N | Reported mean of sample in trait Narcissism | | numeric |
| o_sd_N | Reported standard deviation of sample in trait Narcissism | | numeric |
| o_mean_M | Reported mean of sample in trait Machiavellianism | | numeric |
| o_sd_M | Reported standard deviation of sample in trait Machiavellianism | | numeric |
| o_ni | Sample size | | numeric |
