E		.00	.13**	.14**	.23**	
A	-.10		.15**	.03	-.04	
C	.15	.09		.05	.07	
Es	.08	-.01	.07		-.09	
O	.21	-.11	.07	-.04		

Note: + = loading above .15 (absolute), correlation down left from ESEM, up right from bivariate correlation between scales. h^2 = communality, * = $p < .05$, ** = $p < .001$. $N = 347$

Table S7.

CFI Invariance for difference between the development sample and the replication sample

Model	chi2	df	<i>p</i>	CFI	RMSEA	BIC
Configural	969.3	340	<.001	.844	.084	20384.8
Metric	987.8	355	<.001	.843	.085	20308.9
Scalar	1047.3	370	<.001	.833	.086	20273.9
Comparisons						
Metric against configural	18.6	15	=.23	-.001	-.001	-75.9
Scalar against metric	59.5	15	<.001	-.010	-.001	-35.0

Note: Development sample $N = 198$, replication sample $N = 347$

Items

Table S8.

Items and their facets for the NB5I version 1.0

Factor and facet	Items
A – Altruistic	Give to charity sometimes even when I'm a little low on money
A – Altruistic	Can't see myself give away all of my time for others' need
A – Altruistic	Don't always put others' needs before my own
A – Altruistic	Find it ineffective to give a large part of my time to others
A – Altruistic	Always search for opportunities to help others
A – Altruistic	Keep my money for my own needs
A - Cooperative	Avoid complaining when collaborating with others at almost any cost
A - Cooperative	Do not cooperate when others' demands are unreasonable
A - Cooperative	Am helpful even when others make unreasonable demands
A - Cooperative	Ease collaboration by withholding all criticism of others
A - Cooperative	Express my opinion even if it disrupts teamwork
A - Cooperative	Am cooperative almost whatever it takes
A – Moralistic	Sometimes what I do goes against the wishes of others
A – Moralistic	My most important focus is that my actions never offend anybody
A – Moralistic	My main concern is that all of my actions are good
A – Moralistic	Don't mind if my actions conflict with the wishes of others
A – Moralistic	My actions never go against others
In development ver.	(My actions never go against the wishes of others)
A – Moralistic	Sometimes what I do is not in line with others expectations
In development ver.	(What others think is morally right is not a major concern to me)
A - Sympathetic	Avoid saying things others would regard as criticism
A - Sympathetic	Am not sympathetic towards everyone I meet
A - Sympathetic	Tell it like it is even if it hurts people's feelings
A - Sympathetic	Don't need to be nice all the time
A - Sympathetic	Never voice my objections if someone could be hurt
A - Sympathetic	Would not say the truth if it might hurt someone's feelings
C - Achievement oriented	Don't have to over-perform
C - Achievement oriented	Top performance is not the most important goal for me
C - Achievement oriented	When at work I sometimes treat myself to a break even if it affects my performance
C - Achievement oriented	Never allow myself to just do something "good enough"
C - Achievement oriented	My attention is altogether concentrated on my work and career
C - Achievement oriented	Do not rest until I have reached my goals

Table S9 (cont)

Factor and facet	Item
C – Dutiful	Tasks that should get done may have to wait awhile
C – Dutiful	Am sometimes pressed to skip certain duties
C – Dutiful	Notice that I skip some things others think are important
C – Dutiful	Sometimes put too much effort in being best prepared
C – Dutiful	Make sure things get done, even if they have no real significance
C – Dutiful	Don't leave a plan once I made it
C – Orderly	Always clean up after myself before I start the next activity
C – Orderly	Am only pleased if things are put in systematic order
C – Orderly	I accept the fact that I'm sloppy with tasks now and then
C – Orderly	Feel the need to always have things tidy and clean
C – Orderly	Often accept disarray around me
C – Orderly	Spend minimal time keeping every little thing in its place
C – Self-Effective	In many cases, a performance of acceptable quality is good enough
C – Self-Effective	Can allow myself to let insufficient planning affect the perfect solution
C – Self-Effective	Don't diverge from methodically performing some tasks
C – Self-Effective	Am focused on using my time effectively
C – Self-Effective	Don't generally execute every task seamlessly
C – Self-Effective	Mostly try to achieve perfection when I do something
E – Active	Some days I do a little less in my spare time
E – Active	Arrange leisure activities all the time
E – Active	Some days I avoid constant activity
E – Active	Days of activity without a break give me energy
E – Active	Rather shop or amuse myself than take it easy
E – Active	Search for something fun to do just for the sake of it
E – Friendly	Feel a lot better about everything when my friends are around
E – Friendly	Have people around me almost continuously
E – Friendly	Want all the time to be with colleagues and people I know
E – Friendly	Meet and socialize with friends and colleagues all the time
In development ver.	(What others think is morally right is not a major concern to me)
E – Friendly	Have no great need to have a lot of friends
In development ver.	(Want to constantly meet and socialize with friends and colleagues)
E – Friendly	Everything I do feels a lot better if my friends are around
E – Happy	Almost always choose comedy over other genres
E – Happy	Don't miss an opportunity to crack a funny joke
E – Happy	Rarely volunteer to be the party jokester
E – Happy	Am not a person who is laughing and joking all the time
E – Happy	Avoid joking when surrounded by people I do not know
E – Happy	Strive to make people laugh all the time

Table S9 (cont)

Factor and facet	Item
E - Excitement Seeking	Get a kick out of dramatic situations
E - Excitement Seeking	Rarely seek excitement for its own sake
E - Excitement Seeking	Have a strong need to be where things are happening
E - Excitement Seeking	Don't fill my life with excitement and drama
E - Excitement Seeking	Excitement is not something I deliberately search for.
E - Excitement Seeking	Often repeatedly engage in activities that give me a thrilling experience
Es - Non anxious	Stay very calm no matter what
Es - Non anxious	Am concerned about my ability to perform
Es - Non anxious	Am troubled about what will happen to me
Es - Non anxious	Don't think about the future in very negative terms
Es - Non anxious	Am nervous and apprehensive about what will happen to me
Es - Non anxious	Am not a person who worries a lot about tomorrow
Es - Non depressed	Don't attribute bad outcomes to my own actions
Es - Non depressed	Usually think bad things in my life will pass by quickly
Es - Non depressed	Am not pessimistic about the future
Es - Non depressed	Never get sad to the point where it interferes with my life
Es - Non depressed	Often get depressed when things go badly
Es - Non depressed	Often find negative things come to my mind
ES - Non irritated	Few things can make me frustrated
ES - Non irritated	If things don't go my way, I often feel irritated
ES - Non irritated	Become irritated when problems arise
ES - Non irritated	Have a very high irritation threshold
ES - Non irritated	Almost no situation provokes me
ES - Non irritated	Sometimes lose my temper
Es - Non Vulnerable	Have some problems coping under pressure
Es - Non Vulnerable	Become almost overwhelmed emotionally by some events
Es - Non Vulnerable	Few things can make me lose my cool
Es - Non Vulnerable	React at times with fear and worry in difficult situations
Es - Non Vulnerable	Am almost never knocked off balance
Es - Non Vulnerable	Almost no one can rush me
O – Artistic	Don't read much profound art and literature
O – Artistic	Am often thinking about different art and literature projects
O – Artistic	Am constantly looking for new ways to artistically express myself
O – Artistic	Don't read poetry often
O – Artistic	Constantly looking for new sides of nature's beauty
O – Artistic	Don't like profound poetry

Table S9 (cont)

Factor and facet	Item
O - Inner life oriented	Am usually drawn to other things than reflecting on my own thoughts and feelings
O - Inner life oriented	Constantly examine the way people think about things
O - Inner life oriented	Rarely have wild imaginations
O - Inner life oriented	Rarely find myself daydreaming
O - Inner life oriented	Analyzing my inner world is not the most important aspect of my life
O - Inner life oriented	Am very interested in what is inside of me, how I feel and think
O - Intellectual	Am thinking of intellectual problems even when I do the housework
O - Intellectual	Rarely read a complex philosophical text
O - Intellectual	Just doing abstract analyses doesn't give me great satisfaction
O - Intellectual	Am very deeply engaged in intellectual topics
O - Intellectual	Abstract reasoning without clear goals rarely interests me
O - Intellectual	Often study thought-provoking texts
O - Variability seeking	Re-examine my opinion as soon as I find out something new
O - Variability seeking	Usually do not see the need to rethink my opinions
O - Variability seeking	Constantly seek new ways of thinking about my existence
O - Variability seeking	Rarely have reason to change my worldview
O - Variability seeking	Try to find new ways of thinking about the world
O - Variability seeking	Usually don't need to reevaluate my opinion of things
