

## CODEBOOK FOR FILE `coding_cf_screening`

VARIABLE NAME	DESCRIPTION
<b>id</b>	Numerical identifier for each publication. Matches variable <i>id</i> in all other datasets. 3 digits, first digit indicating survey wave
<b>pop_id</b>	ID in the population of papers table exported from EbscoHost
<b>authors</b>	Authors of publication [Last name] et al.
<b>year</b>	Year of publication
<b>title</b>	Title of publication
<b>journal</b>	Journal in which paper was published
<b>vol</b>	Volume of journal
<b>issue</b>	Issue of volume
<b>pages</b>	Pages of volume/issue
<b>doi</b>	Digital Object Identifier
<b>limiter</b>	Entries in PsycInfo were filtered using limiters. We manually check and exclude any papers to which these limiters apply but that were nonetheless in the database export. 1 = not published in a peer-reviewed journal 2 = not in English language 3 = published before 06/2019 4 = not an empirical study 5 = no human subjects 6 = human subjects below the age of 18
<b>multi_study</b>	Is it a multi-study paper? 0 = single-study paper 1 = multi-study paper -99 = not applicable
<b>study_order</b>	If it is a multi-study paper, we choose the first study which meets the criteria below and provide the order number of the study as reported in the publication (excluding pilot studies) -99 = not applicable
<b>personal_data</b>	Are personal data collected as defined in 4(1) GDPR? 0 = no 1 = yes -77 = indeterminable -99 = not applicable
<b>location</b>	Data collected in any of the following EEA countries: AT = Austria BE = Belgium DE = Germany FR = France IE = Ireland

LI = Liechtenstein  
 LU = Luxembourg  
 NL = The Netherlands  
 SE = Sweden  
 UK = The United Kingdom  
 XX = At least two of the above  
 0 = none of the above  
 -?? = indeterminable  
 -99 = not applicable

<b>completion_date</b>	Were data collected on or after May 24th, 2016? 0 = no 1 = yes -?? = indeterminable -99 = not applicable
<b>orig_data</b>	Does the study use original data? 0 = no 1 = yes -?? = indeterminable -99 = not applicable
<b>limited_information</b>	Was there an obvious and legitimate reason that certain sorts of information would not have been provided to research subjects or consent could not have been obtained? 0 = no 1 = yes -99 = not applicable
<b>candidate_study</b>	Based on the coding above, should we contact the authors to confirm eligibility? 0 = study should be excluded 1 = study is a candidate for the final sample
<b>corresp_first</b>	First names of corresponding author as stated in the publication -99 = not applicable
<b>corresp_last</b>	Last names of corresponding author as stated in the publication -99 = not applicable
<b>contact</b>	(e-mail) contact of corresponding author as stated in the publication -99 = not applicable
<b>contact_date</b>	Date by which corresponding author has been contacted YYYY-MM-DD -99 = not applicable
<b>eligibility</b>	Is the study eligible as confirmed by the authors (personal data were collected in the EEA on or after May 24th, 2016)? 0 = no 1 = yes -?? = indeterminable -99 = not applicable
<b>consent_form</b>	Consent form has been received within six weeks 0 = no (explicitly declined request) 1 = yes -?? = insufficient response -99 = non-response
<b>notes</b>	Additional relevant information about the publication
